

I object to the proposed 10 year plan by the current postmaster general to reduce postal services and close post offices. The postmaster general is a right wing extremist who is dedicated to the abolishment of the US postal service pursuant to an extremist agenda of our former president who appointed him. He needs to be immediately terminated from the postal service for the betterment of our country.

The fact that this on-line filing was so complicated to file is evidence that the current members of the board should also be removed from office as you apparently have no interest in hearing from members of the public.
